II. INTRODUCTION

A. Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Emerging Equity Scheme is only name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of any of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The scheme under this scheme information document is a guaranteed or assured return scheme.

Scheme Specific Risk Factors

- The portfolio of Kotak Emerging Equity Scheme will comprise predominantly of equity and equity related securities and there could be Moderate to High risk on account of Price Fluctuations and volatility. The ability of the mid & small cap companies to withstand the change in the business cycle is limited, which may also lead to higher volatility in stock prices.
- Mid and small cap companies may lack depth of management, be unable to generate funds necessary for growth or development, or be developing or marketing new products or services for which the markets are not well established and may never become established. They could also suffer from disadvantages such as suboptimal technologies, lack of bargaining power with suppliers, low entry barriers, inadequate transparency & corporate governance, limited resilience to withstand shocks of business / economic cycles etc.
- Since this is a not a sector scheme and plans to invest across sectors, the concentration and sector risk is low.
- Since the liquidity in the stocks of mid & small cap companies is relatively lower than the stocks of large companies, the liquidity risk is also expected to be relatively higher. However, the diversification and flexibility to invest up to 35% in other companies (large companies) reduces the overall volatility and liquidity risk of the portfolio.
- Some investments may also be made in equity-based derivatives such as Options and Futures in which case, the risk associated with such derivatives would also be applicable.
- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. The Scheme may invest in corporate bonds. Corporate bonds carry higher amount of risk than government securities. Further, even among corporate

bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.

- The scheme may from time to time invest in domestic securitised debt, for instance, in asset backed securities or mortgage-backed securities. Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, etc.

Risks associated with Capital Markets or Equity Markets

- **Price fluctuations and Volatility:**

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

- **Concentration / Sector Risk:**

When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under this scheme will be in a portfolio of diversified equity or equity related stocks spanning across a few selected sectors. Hence the concentration risks could be high.

- **Liquidity Risks:**

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information.

- **Potential Loss associated with Derivative Trading pertaining to Equity :**

- a) In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.
- b) The risk (loss) for an options buyer is limited to the premium paid, while the risk (loss) of an options writer is unlimited, the latter's gains being limited to the premiums earned.

However, in the case of KMMF, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.

Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)

i. Credit Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

ii. Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

iii. Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.50% p.a., its market value would drop to Rs. 98.76 (i.e. 1.24%) If the security is upgraded to AAA category which commands a market yield of, say, 9.60% p.a. its market value would increase to Rs103.48 (i.e. by 3.48%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	11.00	100.00
If upgraded to AAA	9.60	103.48
If downgraded to A	11.50	98.76

iv. Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

v. Spread Risk:

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

vi. Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently the proceeds may get invested at a lower rate.

vii. Liquidity Risk:

The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

viii. Potential Loss associated with Derivative Trading pertaining to Debt Markets:

The use of an Interest Rate Swap ('IRS') does not eliminate the credit (default) risk on the original investment. While the fixed to floating rate IRS reduces interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline. In case of a floating to fixed rate swap, any subsequent rise in interest rates will result in a loss like in any fixed rate

investment. Any IRS carries, the risk of default of the counter party to the swap, which may lead to a loss. Such loss is usually, a small proportion of the notional principal amount of the swap.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

ix. Risks associated with Securitised Debt:

The Scheme may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

a) Auto Loans

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.

These loans are also subject to model risk. i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclical nature in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

b) Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

c) Consumer Durable Loans

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

d) Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

e) Single Loan PTC

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

- **Potential Loss associated with Securities Lending:**

In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

B. Requirement of Minimum Investors in the Scheme

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed

at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. Special Considerations

- i.** Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- ii.** Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- iii.** Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Scheme. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.
- iv.** If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- v.** If a Unit holder makes a redemption request immediately after purchase of units, the Fund shall have a right to withhold the redemption request till sufficient time has elapsed to ensure that the amount remitted by the Unit holder (for purchase of units) is realized and

the proceeds have been credited to the Scheme's Account. However, this is only applicable if the value of redemption is such that some or all of the freshly purchased units may have to be redeemed to effect the full redemption.

- vi. In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.
- vii. If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.
- viii. **Purchase/ Redemption of units of schemes of Kotak Mahindra Mutual Fund through Stock Exchange Infrastructure**

Kotak Mahindra Asset Management Company Limited (KMAMC) offers an alternate transaction platform to facilitate purchase/redemption of units in Demat form of certain schemes of Kotak Mahindra Mutual Fund on Mutual Fund Service System (MFSS) of the National Stock Exchange India Limited (NSE) and on the BSE Stock Exchange Platform for Allotment and Repurchase of Mutual Funds (BSE StAR MF System) of the Bombay Stock Exchange (BSE). KMAMC has entered into an arrangement with NSE & BSE for facilitating transactions in select Kotak Mahindra Mutual Fund schemes through the stock exchange brokers who are AMFI Certified.

- Unit holders, both existing and new, having a demat account can only participate through this facility. However, switch transactions, SWP, STP are currently not available under this facility. Switch Transactions are permitted only BSE StarMF platform.
- MFSS and BSE StAR MF are electronic platforms introduced by National Stock Exchange (NSE) & Bombay Stock Exchange (BSE) respectively for transacting in units of mutual funds. The units of eligible Schemes are not listed on NSE & BSE and the same cannot be traded on the Stock Exchange like shares. III. INFORMATION ABOUT THE SCHEME

Kotak Emerging Equity Scheme

A. Type of Scheme

An open ended equity growth scheme

B. Features of the scheme (Investment Objective, Asset Allocation Pattern, Investment Strategy, Benchmark, Risk Mitigation)

Investment Objective	<p>The investment objective of the scheme is to generate long-term capital appreciation from a portfolio of equity and equity related securities, by investing predominantly in mid and small cap companies.</p> <p>The scheme may also invest in Debt and Money Market Instruments, as per the asset allocation table.</p> <p>The Scheme's performance will be measured against the benchmark S&P BSE Mid Small Cap.</p> <p>There is no assurance that the investment objective of the Scheme will be achieved.</p>													
Asset Allocation	<p>The asset allocation under the Scheme, under normal circumstances, will be as follows:</p> <table border="1" data-bbox="491 1137 1305 1480"> <thead> <tr> <th>Investments</th> <th>Indicative Allocation</th> <th>Risk Profile</th> </tr> </thead> <tbody> <tr> <td>Equity & Equity related Securities Of which</td> <td>65% to 100%</td> <td rowspan="3">Medium to High</td> </tr> <tr> <td>➤ Mid and small cap companies</td> <td>65% to 100%</td> </tr> <tr> <td>➤ Other Companies</td> <td>0% to 35%</td> </tr> <tr> <td>Debt & Money Market Instruments *</td> <td>0% to 35%</td> <td>Low</td> </tr> </tbody> </table> <p>The asset allocation shown above is indicative and may vary according to circumstances at the sole discretion of the Fund Manager, on defensive consideration. Review and rebalancing will be conducted when the asset allocation falls outside the range indicated above. If the exposure falls outside the above range, it will be restored within 10 Business Days.</p> <p>If permitted by SEBI under extant regulations/guidelines, the scheme may also engage in stock lending, not exceeding 20 % of the net assets of the Scheme, provided the minimum corpus of the scheme is Rs.100 Crore. Investments will be made in derivatives instruments upto 35% of the net assets of the Scheme.</p> <p>* Debt instruments shall be deemed to include securitised debts and investment in such securitised debts shall not exceed 25% of the net assets</p>	Investments	Indicative Allocation	Risk Profile	Equity & Equity related Securities Of which	65% to 100%	Medium to High	➤ Mid and small cap companies	65% to 100%	➤ Other Companies	0% to 35%	Debt & Money Market Instruments *	0% to 35%	Low
Investments	Indicative Allocation	Risk Profile												
Equity & Equity related Securities Of which	65% to 100%	Medium to High												
➤ Mid and small cap companies	65% to 100%													
➤ Other Companies	0% to 35%													
Debt & Money Market Instruments *	0% to 35%	Low												

	<p>of the scheme. The total investment value of equity, debt instruments and notional value of Investment in derivatives shall not exceed 100% of the net assets of the scheme.</p> <p>From time to time the Scheme may hold cash.</p> <p>For the purpose of determining market capitalisation, the scheme will follow the market capitalisation range as per S&P BSE MID SMALL CAP, or other such agency as may be designated by the AMC, at the end of every calendar quarter. Any stock which has a market capitalization above the highest market capitalisation in S&P BSE Mid Small Cap would be considered as Largecap, and, any stock which has a market capitalisation below the lowest market capitalisation in S&P BSE Mid Small Cap would be considered as smallcap. The scheme will reset the allocation as per the new definition within 15 Business days from the receipt of such classifications.</p>
<p>Investment Strategy and Risk Control Measures</p>	<p>The scheme will use bottom-up stock selection and invest across sectors and companies. To achieve the investment objective, the scheme will predominantly invest in equity and equity linked instruments of mid & small cap companies, i.e., companies that have market capitalisation lower than the large cap companies.</p> <p>For the purpose of determining market capitalisation, the scheme will follow the market capitalisation range as per S&P BSE Mid Small Cap, or other such agency as may be designated by the AMC, at the end of every calendar quarter. Any stock which has a market capitalization above the highest market capitalisation in S&P BSE Mid Small Cap would be considered as Largecap, and, any stock which has a market capitalisation below the lowest market capitalisation in S&P BSE Mid Small Cap would be considered as smallcap</p> <p>The universe would also include those companies coming with the IPO and whose post issue market cap (based on the issue price) would fall under above-mentioned criteria.</p> <p>The investment strategy of the AMC is directed to investing in stocks, which, in the opinion of the Fund Manager, are priced at a material discount to their intrinsic value. Such intrinsic value is a function of both past performance and future growth prospects. The process of discovering the intrinsic value is through in-house research supplemented by research available from other sources.</p> <p>For selecting particular stocks as well as determining the potential value of such stocks, the AMC is guided, inter alia, by one or more of the following considerations:</p> <ol style="list-style-type: none"> a) The financial strength of the companies, as indicated by well-recognised financial parameters; b) Reputation of the management and track record; c) Companies that are relatively less prone to recessions or cycles, either because of the nature of their businesses or superior strategies followed by their management; d) Companies which pursue a strategy to build strong brands for their

	<p>products or services and those which are capable of building strong franchises; and</p> <p>e) Market liquidity of the stock.</p> <p>In an endeavour to preserve capital in bearish market conditions, the Fund Manager may invest in money or debt market securities up to 35% of the portfolio.</p> <p>The Scheme may invest in listed/unlisted and/or rated/unrated debt or money market securities, provided the investments are within the limits indicated in the Investment Pattern Table. Investment in unrated debt securities is made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above, approval of the Boards of both the AMC and the Trustee is taken before making the investment.</p> <p>The Scheme may also use various derivative products from time to time, in the manner permitted by SEBI.</p> <p>To avoid duplication of portfolios and to reduce expenses, the Scheme may invest in any other scheme of the Fund to the extent permitted by the Regulations. In such an event, the AMC cannot charge management fees on the amounts of the Schemes so invested, unless permitted by the Regulations.</p>
Portfolio Turnover	<p>The portfolio turnover will not normally exceed 250%. Portfolio turnover will exclude:</p> <ul style="list-style-type: none"> ➤ the turnover caused on account of investing the initial corpus; and ➤ the turnover caused on account of investing in debt and money market securities. <p>Turnover means simple average of the aggregate of purchases and sales net of the above exclusions. These purchases and sales invite transaction costs viz. brokerage and custodian transaction charges. The portfolio turnover limit of 250% is essential to enable portfolio restructuring when warranted.</p> <p>Portfolio Turnover Ratio: 57.68.</p>
Benchmark	<p>The performance of the Scheme is measured against S&P BSE Mid Small Cap Index.</p> <p>The composition of the aforesaid benchmark is such that, it is most suited for comparing the performance of the scheme.</p> <p>The Trustees reserves right to change benchmark in future for measuring performance of the scheme.</p>
Risk Mitigation	<p>Risk control measures for investment strategy</p> <p>The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored at and necessary action would be taken on the portfolio if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same.</p> <p>Risk mitigation measures for portfolio volatility</p> <p>The overall volatility of the portfolio would be maintained in line with the</p>

	<p>objective of the scheme. The portfolio would be adequately diversified to mitigate volatility. Volatility would be monitored with respect to the benchmark and peer set</p> <p>Risk mitigation measures for managing liquidity Since this is a mid cap oriented fund, liquidity risk may be higher than schemes which have a larger proportion of large cap stocks. The fund manager may also keep some portion of the portfolio in debt and money market instruments, large cap stocks and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.</p>

- e. Obligations/ Term Deposits of banks (both public and private sector) and development financial institutions to the extent permissible under SEBI Regulations
- f. Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.
- g. Certificate of Deposits (CDs).
- h. Commercial Paper (CPs).
- i. Repo of corporate debt securities.
- j. Securitised Debt, not including foreign securitised debt.
- k. The non-convertible part of convertible securities.
- l. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time. Derivative instruments like Interest Rate Swaps, Forward Rate Agreements and such other derivative instruments permitted by SEBI/RBI.
- m. Any other instruments / securities, which in the opinion of the fund manger would suit the investment objective of the scheme subject to compliance with extant Regulations.

Participation of schemes of Kotak Mahindra Mutual Fund in repo of corporate debt securities:

In accordance with SEBI circular no. CIR / IMD / DF / 19 / 2011 dated November 11, 2011 and CIR/IMD/DF/23/2012 dated November 15, 2012; schemes of Kotak Mahindra Mutual Fund (KMMF) shall participate in the corporate bond repo transactions w.e.f. June 21, 2013 as per the guidelines issued by Reserve Bank of India (RBI) from time to time. Currently the applicable guidelines are as under:

- The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt and derivatives shall not exceed 100% of the net assets of the concerned scheme.
- Mutual Funds shall participate in repo transactions only in AA and above rated corporate debt securities.
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months

The investment restrictions applicable to the Scheme's participation in the corporate bond repos will also be as prescribed or varied by SEBI or by the Board of Kotak Mahindra Trustee Company Limited (subject to SEBI requirements) from time to time.

The following guidelines shall be followed by Kotak Mahindra Mutual Fund for participating in repo in corporate debt securities, which have been approved by the Board of AMC and Trustee Company.

(i) Category of counterparty to be considered for making investment:

All entities eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

(ii) Credit rating of counterparty to be considered for making investment

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.

(iii) Tenor of Repo and collateral

As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations.

As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee.

There shall be no restriction / limitation on the tenor of collateral.

(iv) Applicable haircuts

As per RBI circular RBI/2012-13/365 IDMD.PCD. 09 /14.03.02/2012-13 dated 07/01/2013, all corporate bond repo transaction will be subject to a minimum haircut given as given below:

(1) AAA	: 07.50%
(2) AA+	: 08.50%
(3) AA	: 10.00%

The haircut will be applicable on the prevailing market value of the said security on the prevailing on the date of trade. However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the market prevailing liquidity situation.

Risk envisaged and mitigation measures for repo transactions:

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

Investment in Derivatives:

The Scheme may use derivative instruments such as index futures, stock futures, index options, stock options, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations, as would be commensurate with the investment objective of the Scheme. The manner of use of derivatives instruments is illustrated below:

Hedging & Portfolio balancing

As part of the fund management exercise under the Scheme, the Trustee may permit the use of any of the instruments mentioned above or any other instrument that may become permissible in the future under applicable regulations. Such investment in Index futures, Interest Rate Swaps, Stock options, Index Options, Stock Futures and other derivative instruments will be used with the objective of a) hedging the portfolio and/or b) rebalancing of the portfolio of the Scheme or c) for any other purpose as may be permitted by the Regulations from time to time.

The note below explains the concept of Index Futures, Options and Interest Rate Swaps, with an example each, for the understanding of the Unitholders.

Index Futures

Due to ease of execution and settlement, index futures are an efficient way of buying / selling an Index compared to buying / selling a portfolio of physical shares representing an Index. Index futures can be an efficient way of achieving a Scheme's investment objectives. Index futures may do away with the need for trading in individual components of the Index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scripts. Index futures can also be helpful in reducing transaction costs and processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Index and will be easy to settle compared to physical portfolio of shares representing an Index

The National Stock Exchange and the Bombay Stock Exchange introduced Index futures on Nifty (NSE-50) and Sensex (BSE 30) for three serial months. For example, in the month of Jun 2017, three futures were available i.e. June, July and September 2017, each expiring on the last working Thursday of the respective month

Let us assume the Nifty Index was 9600 as on Jun 16, 2017 and three future indices were available as under:

Month	Bid Price	Offer Price
Jun 2017	9607	9610
Jul 2017	9630	9632
Aug 2017	9645	9647

The Fund could buy an Index of Jun 2017 as on Jun 16, 2017 at an offer price of 9610. The Fund would have to pay the initial margin as regulated by the exchanges and settle its Index position with daily marked to market i.e. receive profits/pay losses on a daily basis.

The following is a hypothetical example of a typical index future trade and the associated costs compared with physical stocks.

(Amount in Rupees)

Particulars	Index Future	Actual Purchase of Stocks
Index as on Jun 16, 2017	9600	9600
Jun 2017 Futures Cost	9610	
A. Execution Cost		
Carry costs (9610-9600)	10.00	Nil
B. Brokerage Cost		
Assumed at 0.03% for Index Future and 0.05% for spot stocks (0.03% of 9610) (0.05% of 9600)	2.8830	4.8000
C. Securities Transaction Tax STT for Index Futures is Nil STT for Spot Stocks is 0.10% (0.10% of 9600)	Nil	9.6000
D. Gains on Surplus Funds (Assuming 4% return on 91% of the money left after paying (9% margin) (4% x 9600 x 91% x 13 days ÷ 365)	(12.4458)	Nil
Cash Market/ Sale Price at expiry	9700	9700
E. Brokerage on Sale		
Assumed at 0.03% for Index Future and 0.05% for Spot stocks (0.03% of 9700) (0.05% of 9700)	2.9100	4.8500
F. Securities Transaction Tax STT for Index Futures is 0.01% STT for Spot Stocks is 0.10% (0.01% of 9700) (0.10% of 9700)	0.9700	9.7000
Total Cost (A+B+C-D+E+F)	4.3172	28.9500
Profit	95.6828	71.0500

As the above example demonstrates, the cost differential between purchasing Index Future and 50 stocks comprising Nifty (NSE-50) is a function of the carrying cost, the interest earned available to Fund Managers and the brokerage cost applicable in both cases. However, as mentioned earlier, as the Indian equity markets continues to have limitations in execution of

trades due to the lack of adequate liquidity and the concept of circuit breakers, index future can allow a fund to buy all the stocks comprising the index at a nominal additional cost.

Please note that the above example is hypothetical in nature and the figures, brokerage rates etc. are assumed. In case the execution and brokerage costs on purchase of Index Futures are high and the returns on surplus funds are less, buying of index future may not be beneficial as compared to buying stocks comprising the Index. The actual return may vary based on actuals and depends on final guidelines / procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorities.

Use of futures

Futures can effectively be used as a substitute for underlying stocks e.g. if the Scheme has received fresh subscriptions and if it is not immediately possible to invest the cash so received into intended stocks, the Fund Manager can buy a Future contract and subsequently replace them by actual purchase of stocks. The reverse can be done in case of redemption of Units.

The Scheme typically holds cash in order to meet sudden redemption requests. This cash holding reduces the overall returns of the Scheme. By buying futures relative to this cash holding the Scheme can effectively increase its exposure to the market while keeping the cash required to meet redemption requirement.

Futures will be used to hedge or rebalance the Portfolio or as permitted by the Regulations from time to time.

Option Contracts (Stock and Index)

In the global financial markets, particularly securities markets, options have been, for quite many years, a means of conveying rights from one party to another at a specified price on or before a specific date, at a cost, which is called Premium. The underlying instrument can be an individual stock or a stock index such as the BSE Sensex (such options being referred to as index options). Options are used widely the world over to manage risk and generate income. options may be preferred over futures as they provide asymmetric pay offs.

Option contracts are of two types - Call and Put; the former being the right, but not obligation, to purchase a prescribed number of shares at a specified price before or on a specific expiration date and the latter being the right, but not obligation, to sell a prescribed number of shares at a specified price before or on a specific expiration date. The specified price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. In India, all options are European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike price.

Example for Options

Buying a Call Option: Let us assume that the Scheme buys a call option of ABC Ltd. with strike price of Rs. 3500, at a premium of Rs. 100. If the market price of ABC Ltd on the expiration date is more than Rs. 3500, the option will be exercised. The Scheme will earn profits once the share price crosses Rs. 3600 (Strike Price + Premium i.e. 3500+100). Suppose the price of the stock is Rs. 3800, the option will be exercised and the Scheme will buy 1 share of ABC Ltd. from the seller of the option at Rs 3500 and sell it in the market at Rs. 3800, making a profit of Rs. 200. In another scenario, if on the expiration date the stock price falls below Rs. 3500, say it touches Rs. 3000, the Scheme will choose not to exercise the option. In this case the Scheme loses the premium (Rs. 100), which will be the profit earned by the seller of the call option.

Thus for an option buyer, loss is limited to the premium that he has paid and gains are unlimited. The risk of an option writer i.e. the seller of the option, is unlimited while his gains are limited to the premiums earned. However, in the case of the Scheme, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss as illustrated in the example below.

Buying a Put Option: Let us assume that the Scheme owns shares of ABC Ltd., which are trading at Rs. 3500. The fund manager expects the price to rise to Rs. 3800 but at the same time wants to protect the downside. So, he can buy a put option at Rs. 3500 by paying a premium of, say, Rs. 100. If the stock falls to say Rs 3200 by expiry, the option becomes in-the-money by Rs. 300 and the scheme loses only the initial premium paid to buy the hedge. On the contrary, if the fund manager's view turns out to be right and the stock actually rallies to Rs. 3800, the scheme gains Rs. 300 from the stock and the hedging cost paid to buy the protection is the loss. Thus, adjusted for the hedging cost, the scheme gains Rs. 200 from the trade.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

Note on Risk: The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Scheme, as per current SEBI regulations, there is a blanket prohibition on writing of options (call or put).

Interest Rate Futures (IRFs)

Interest Rate Futures (IRF) contract is an agreement to buy or to sell a debt instrument at a specified future date at a price that is fixed today. Exchange traded IRFs are standardised contracts based on a notional coupon bearing Government of India (GOI) security. National Securities Clearing Corporation Limited (NSCCL) is the clearing and settlement agency for all deals executed in Interest Rate Futures. NSCCL acts as legal counter-party to all deals on Interest Rate Futures contract and guarantees settlement.

Using IRFs

- **Directional trading**

As there is an inverse relationship between interest rate movement and underlying bond prices, the futures price also moves in tandem with the underlying bond prices. If one has a strong view that interest rates will rise in the near future and wants to benefit from rise in interest rates; one can do so by taking short position in IRF contracts.

Example:

A trader expects long-term interest rate to rise. He decides to sell Interest Rate Futures contracts as he shall benefit from falling future prices.

Expectation	Position
Interest Rates going up	Short Futures
Interest Rates going down	Long Futures

- Trade Date- 1st April 2017
- Futures Delivery date – 1st May 2017
- Current Futures Price- Rs. 97.50
- Futures Bond Yield- 8.21%

- Trader sell 250 contracts of the May 2017 - 10 Year futures contract on NSE on 1st April 2017 at Rs. 97.50

Assuming the price moves to Rs. 97.15 on April 9, 2017, net MTM gain would be Rs. 1,75,000 ($250 \times 2000 \times 97.50 - 97.15$) (I)

Closing out the Position

- 10th April 2017 - Futures market Price – Rs. 96.70
- Trader buys 250 contracts of May 2017 at Rs. 96.70 and squares off his position
- Therefore total profit for trader $250 \times 2000 \times (97.15 - 96.70)$ is Rs.2,25,000 (II)
- Total Profit on the trade = INR 4,00,000 (I & II)

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example:

Date: 01-April-2017

Spot price of GOI Security: Rs 105.05

Futures price of IRF Contract: Rs 105.12

On 01-April-2017 XYZ bought 2000 GOI securities from spot market at Rs 105.07. He anticipates that the interest rate will rise in near future. Therefore to hedge the exposure in underlying market he may sell May 2017 Interest Rate Futures contracts at Rs 105.12

On 16-May-2017 due to increase in interest rate:

Spot price of GOI Security: Rs 104.24

Futures Price of IRF Contract: Rs 104.28

Loss in underlying market will be $(104.24 - 105.05) \times 2000 = \text{Rs } 1620$

Profit in the Futures market will be $(104.28 - 105.12) \times 2000 = \text{Rs } 1680$

Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

On 18th April, 2017 buy 6.35% GOI '20 at the current market price of Rs. 97.2485

Step 1 - Short the futures at the current futures price of Rs. 97.80

Step 2 - Fund the bond by borrowing up to the delivery period (assuming borrowing rate is 8.00%)

Step 3 - On 10th May 2017, give a notice of delivery to the exchange

Under the strategy, the trader has earned a return of

$$= (97.800 - 97.2485) / 97.2485 * 365 / 23$$

$$= 9.00 \% \text{ (implied repo rate)}$$

(Note: For simplicity accrued interest is not considered for calculation)

Against its funding cost of 8.00% (borrowing rate), thereby earning risk free arbitrage.

Interest Rate Swap (IRS)

IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principal amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (coupon) of 6% p.a. payable half yearly. Such an investment runs the risk of depreciation if

interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 5.25% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	6% p.a.
Pay (Fixed rate)	5.25% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.75% p.a. (*)

* (6% p.a. – 5.25 % p.a.)

The floating rate reference is defined in the swap agreement.

The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The Scheme will be allowed to take exposure in Interest Rate Swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio.

The Scheme may use other derivatives such as interest rate futures, etc, to meet the investment objective of the Scheme, whenever such instruments are available in the market.

F. What are Investment Restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. The Scheme shall not invest more than 10% of its NAV in the equity shares or equity related instruments of any company.

Provided that, the limit of 10% shall not be applicable for investments in case of index fund or sector or industry specific scheme.

2. The scheme shall not invest more than 5% of its NAV in the unlisted equity shares or equity related instruments.
3. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company's paid up capital carrying voting rights.
4. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and collateralized borrowing and lending obligations:

Provided further that investment within such limit can be made in mortgaged backed securitized debt which are rated not below investment grade by a credit rating agency registered with the Board.

5. The Scheme shall not invest more than 10% of its NAV in unrated debt instruments, issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the Scheme. All such investments shall be made with the prior approval of the Trustee and the Board of the AMC.
6. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
7. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However the aforesaid provision will not apply to fund of funds scheme.
8. The Scheme shall not make any investments in:
 - (a) any unlisted security of an associate or group company of the Sponsors; or

- (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
- (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.

9. The Scheme shall not invest in any Fund of Funds Scheme.

10. A fund of funds scheme shall be subject to the following investment restrictions:

A scheme shall not invest its assets other than in schemes of mutual funds, except to the extent of funds required for meeting the liquidity requirements for the purpose of repurchases or redemptions, as disclosed in the Scheme Information Document of fund of funds scheme.

11. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-

- (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
- (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

12. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

- Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.
- Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
- Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

13. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or dividends to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.

14. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.

15. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.

16. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, as may be amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.

17. In accordance with SEBI circular no. SEBI/HO//DF2/CIR/P/2016/35 dated February 15, 2016, in case of debt scheme the total exposure in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

18. In accordance with SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012, CIR/IMD/DF/24/2012 dated November 19, 2012 and SEBI circular no. SEBI/HO//DF2/CIR/P/2016/35 dated February 15, 2016, SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2016/68 dated August 10, 2016 and SEBI/HO/IMD/DF2/CIR/P/2017/14 dated February 22, 2017 in case of debt schemes, the total exposure to single sector shall not exceed 25% of the net assets of the scheme. However this limit is not applicable for investments in Bank CDs, CBLO, G-Secs, T-Bills short term deposits of scheduled commercial bank and AAA rated securities issued by Public Financial Institutions and Public Sector Banks. Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 15% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only;

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 25% of the net assets of the scheme

Limits for investment in derivatives instruments

In accordance with SEBI circulars nos. DNPD/Cir-29/2005 dated September 14, 2005, DNPD/Cir-30/2006 dated January 20, 2006 and SEBI/DNPD/Cir-31/2006 dated September 22, 2006, the following conditions shall apply to the Scheme's participation in the derivatives market. iv. Position limit for the Mutual Fund for stock based derivative contracts

The combined futures and options position limit shall be 20% of applicable MWPL

v. Position limit for the Scheme

The position limits for the Scheme and disclosure requirements are as follows–

For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

Exposure Limits:

As per SEBI circular no. Cir / IMD / DF / 11 / 2010 dated August 18, 2010 on “Review of norms for investment and disclosure by Mutual Funds in derivatives”, the limits for exposure towards derivatives are as under:

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
2. Mutual Funds shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following :-
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
7. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
8. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size *
Short Future	Number of Contracts
Option bought	Futures Price * Lot Size *

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Special Products available	<p>The Following facilities are available under the Scheme</p> <ol style="list-style-type: none"> 1. Systematic Investment Plan <ol style="list-style-type: none"> a. SIP Booster Facility b. Flex - Systematic Investment Plan Facility ('FSIP') Facility 2. Systematic Withdrawal Plan 3. Systematic Transfer Plan 4. Dividend Transfer Plan (DTP)

5. Switching
6. Trigger Facility

Systematic Investment Plan (SIP):

This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to "invest as you earn" and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. Any Unitholder can avail of this facility subject to certain terms and conditions contained in the Application Form. The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.

In respect of the second and all subsequent SIPs, investors can choose any one date among 1st, 7th, 10th, 14th, 15th, 21st, 25th, 28th and 30th of the month / quarter as the SIP Date (in case of these above days fall on non-business day the transaction will be effected on the next business day of the scheme. If 28th/29th February is a non-working day then the next working day would be considered as the SIP date) and can also choose the SIP frequency as monthly or quarterly subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The aforesaid minimum gap shall be applicable only for SIPs registered via direct / auto debit. The minimum SIP installment amount is Rs. 1000/-

The SIP request should be for a minimum of 6 months / quarters. The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility). However, the first investment in SIP through the Auto Debit Facility or Direct Debit Facility needs to be made compulsorily by issuance of a cheque from the account from which the Auto Debit / Direct Debit is requested. Investors can also submit SIP applications along with cancelled cheque leaf of the account from where the investor intends to commence the SIP.

If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively the investors should provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.

The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in load structure effected by the AMC after that date may

not be applicable unless stated specifically.

SIP facility is available on MFSS/BSE STAR platform also please refer to the information mentioned under “Special Consideration”.

SIP Booster Facility:

Description: It is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at pre-defined intervals. . This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.

Frequency: Half Yearly Basis and Yearly Basis.

Functionality of frequency:

The installment amount can be increased on a Half-Yearly and/or Yearly basis i.e. on completion of 6 months/1 year from the commencement of the first SIP.

SIP Frequency	SIP Booster Frequency	Default	Min Amount
Monthly	Half Yearly / Yearly	Yearly	Rs. 500 & in multiples of Rs. 500 thereof
Quarterly	Half Yearly / Yearly	Yearly	Rs. 500 & in multiples of Rs. 500 thereof

Other Terms:

- a. SIP Booster Facility shall be available with fresh registration of SIP only. If an existing investor wants to opt for SIP Booster facility, the existing SIP is required to be cancelled and a fresh SIP investment with SIP Booster Facility is required to be submitted.
- b. SIP Booster Facility will be available for all open-ended schemes of Kotak Mahindra Mutual Fund where SIP facility is being currently offered.
- c. Investors opting for this facility, need to duly fill-in the SIP Booster Facility section of SIP Form along-with the other requisite SIP related information.
- d. For complete details regarding the SIP with SIP Booster facility please refer to SIP Auto Debit Form with SIP booster facility.
- e. All other terms & conditions applicable for regular SIP will also be applicable to SIP Booster SIP

Flex - Systematic Investment Plan Facility ('FSIP') Facility

1. **FSIP** - is a facility wherein an investor can opt to invest variable amount in the scheme based on P/E (price-to-earnings ratio) level of Nifty. This facility allows investors to take advantage of market movements by investing higher amounts when the markets are low, and by investing a variable amount (within the limits defined by the investor) when the markets are higher.
2. If an investor wants to opt for the said facility then Individual Enrolment Form is required filled for each FSIP transaction.
3. Details for FSIP:
 - Available under the Monthly and Quarterly Options
 - The minimum amount and tenure of FSIP would be as applicable to normal SIP facility in the scheme.
 - Dates available for transfer are as applicable for regular SIP of Schemes.
 - Investors at the time of registration will have an option to specify the amount to be invested at PE level of ≤ 15 . This amount will have to be higher than the installment amount invested at PE level of > 15 . In case the investor does not specify the amount for PE level of ≤ 15 , then the default amount (3 times the specified amount for PE band > 15) shall be applicable.

4. There is no maximum duration for FSIP enrollment.

5. Calculation of FSIP :

The FSIP will be based on the trailing Price to Equity ratio (P/E) of Nifty 50 Index. The amount to be transferred on each FSIP date will be determined on the basis of the P/E band.

- If the P/E ratio is greater than 15, then the specified amount gets invested
- If the P/E ratio is lesser than or equal to 15, then -
 - The amount in the application form specified by the investor for PE level ≤ 15 .
 - Or if no such amount is specified then the default amount which is 3 times the FSIP amount gets invested
- The installment value of FSIP would be determined based on PE of Nifty 50 on T-10th day. If T-10th day is a non-business day, then valuation will be done on the previous business day i.e. T-11th day.

The process has been explained below through an illustration for FSIP using the default option.

6. In case of FSIP, if four consecutive installments fail, then FSIP will be ceased.

7. The first FSIP installment will be processed as per the standard installment amount specified by the unit holder at the

	<p>time of enrolment and not based on PE value of Nifty 50.</p> <p>8. Once the FSIP has been stopped, the unit holder needs to provide a new request to start FSIP.</p> <p>9. In respect of FSIP enrollments made in any of the existing open ended Scheme(s), the Load Structure prevalent at the time of enrollment shall be applicable to the investors during the tenure of the FSIP.</p> <p>10. FSIP Facility will not be available if the Folio / Certificate is under Lien or marked “FROZEN” on the advice of I.T. authorities /regulatory authorities / Court or any other reason.</p> <p>11. All requests for registering or deactivating the FSIP shall be subject to an advance notice of 10 (Ten) business days. Investors can deactivate the facility by sending a written request to the Investor Service Centers.</p> <p><u>Systematic Withdrawal Plan:</u></p> <p>This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in Scheme at periodic intervals through a one-time request. The withdrawals can be made either Monthly (on 1st, 7th, 14th, 21st or 25th of every month) or Quarterly (on 1st, 7th, 14th, 21st or 25th, as the case may be. In case any of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.</p> <p>Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards.</p> <p>This facility is available in two options to the Unitholders:</p> <p>Fixed Option: Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs</p>
--	---

1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.

Appreciation Option: Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment. The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter.

The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1st, 7th, 14th, 21st or 25th of the month / quarter.

The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.

For both fixed and appreciation option, the provision of minimum redemption amount / units will not be applicable for redemption made under this facility.

Systematic Transfer Plan (STP)

This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The withdrawals can be made either Weekly or Monthly (on any business day) or Quarterly (on any business day). The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)

STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards.

This facility offers two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.

Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.

For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.

The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.

Dividend Transfer Plan (DTP):

Dividend Transfer Plan (DTP) is a facility whereby the unit holders under the Dividend Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their dividends to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. DTP facility will be available to unit holder(s) holding units in non-demat form under the Dividend Option of the Transferor Schemes.

Under the DTP facility investors cannot transfer their dividends into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak Tax Saver Scheme.

Under DTP, dividend as & when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the dividend amount in the Transferor Scheme is less than Rs.500/- the dividend will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under DTP.

Enrolment under the DTP facility will automatically override any previous instructions for 'Dividend Payout' or 'Dividend Reinvestment' option in the transferor scheme. No Exit Load will be levied on units allotted in the Transferee Scheme under the Dividend Transfer Plan.

Unit holders who wish to enroll for the DTP facility are required to fill DTP Enrollment Form available with the ISC's, distributors/agents and also available on the website assetmanagement.kotak.com

The request for enrolment or cancellation for DTP must be submitted at least 7 days prior to the Record Date for the dividend. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the dividend, provided the difference between the date of receipt of a valid application for enrolment under DTP and the next Record Date for the dividend is not less than 7 days.

The AMC / Trustee reserve the right to change/ modify the terms and conditions of the DTP on a prospective basis.

Switching

Unitholders of the Scheme have the option of switching out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Fund.

A switch has the effect of redemption from a Scheme/Plan/ Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified.

Switch is affected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option.

All other terms & conditions of existing SIP will remain the same.

Trigger Facility

Unitholders of the Scheme have the option under this facility to automatically redeem/ switch the units to any other scheme on the occurrence of any one of the trigger option as specified by Unit holder

➤ **Trigger Options:**

- **Value Trigger (Amount based)**
- **Appreciation/Depreciation Trigger (% based)**

Value Trigger: Under this option the investors will be given a choice to indicate the exit trigger as and when investment value increases/decreases by a particular sum.

Appreciation/Depreciation Trigger: Under this option the investors will be given a choice to indicate the exit trigger as and when investment value appreciates/depreciates by a particular percentage (%) (Whole Numbers only e.g. 10%, 11%) of investment value.

➤ **Actions on occurrence of Trigger:**

Additionally the investor can choose any of the applicable actions on occurrence of trigger:

1. Redemption/Switch to the extent of capital appreciation or
2. Redemption/Switch of Full amount or
3. Redemption/Switch of Partial amount (%)

➤ **Trigger Facility will be available in the following specified schemes:**

The investors of the transferor scheme, on occurrence of trigger can opt for switch in their investments in any of below mentioned transferee schemes:

- Kotak Liquid
- Kotak Floater Short Term
- Kotak Treasury Advantage
- Kotak Low Duration Fund
- Kotak Banking & PSU Debt Fund

	<p>Notes:</p> <ol style="list-style-type: none"> 1. Trigger Facility will be a one time facility which can be selected by the investors. On occurrence of trigger and post completion of corresponding action, the trigger facility will be automatically deactivated. 2. Trigger Facility will be available only for growth option. In case investor has opted for trigger facility and subsequently switches from growth option to dividend option, the trigger facility will be automatically deactivated 3. Minimum Investment in the facility – Rs. 20,000, and in multiples of Rs 0.01 thereof. 4. The minimum application amount criteria for switch into transferee schemes will not be applicable. 5. NAVs of the schemes are declared at the close of the business day and hence value of the unit holder's unit holdings based on the end of day NAV will be considered as a base for activating the triggers. Accordingly, all the redemptions/switches etc. will be done on the day on which the trigger occurs. Applicable NAV of switch in schemes will be applied. 6. All requests for registering or deactivating the trigger facility shall be subject to an advance notice of 10 (Ten) business days. Investors can deactivate the trigger facility by sending a written request to the Investor Service Centres. Trigger facility shall be applicable subject to exit load, if any, in the transferor schemes. 7. Investor cannot modify a Trigger registration once submitted. Investor must cancel the existing Trigger option and enroll for a fresh Trigger option. 8. Trigger Facility is not available if the Folio / Certificate is under Lien or marked "FROZEN" on the advice of I.T Authorities /regulatory authorities/ Court or any other reason. 9. All trigger option will be processed at transaction level. Since, redemption is processed on First-in-First-out basis, investors having multiple transactions in single folio and opting for trigger facility will have to select the redemption action at transaction level. 10. Existing investors of the transferor schemes can opt for trigger facility by completing the necessary formalities. 11. Systematic Withdrawal Plan (SWP)/Systematic Transfer Plan (STP) facilities will not be available for the investors, if they opt for trigger facility.

C. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

NAV =	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses
	No. of Units outstanding under the Scheme/Option.				

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto three decimals for each scheme.

Computation of NAV will be done after taking into account dividends paid, if any, and the distribution tax thereon, if applicable. Therefore, once dividends are distributed under the Dividend Option, the NAV of the Units under the Dividend Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. New Fund Offer (NFO) Expenses

This is an ongoing scheme on the date of updating this document.

B. Total Expense Ratio (TER)

Total Expense Ratio is the total of ongoing fees and operating expenses charged to the scheme, expressed as a percentage of the scheme's daily net assets.

These fees and expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, brokerage/commission, marketing and selling costs etc.

The maximum total expenses of the scheme under Regulation 52(6)(c) shall be subject to the following limits:

Daily Net Assets (Rs.)	Kotak Emerging Equity Scheme
First 100 crores	2.50%
Next 300 crores	2.25%
Next 300 crores	2.00%
Balance assets	1.75%

Total Expense Ratio for the scheme

The AMC has estimated the above given recurring expenses, for each scheme. Total expense ratio of each Scheme (including investment and advisory fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52(6) & (6A), as amended from time to time, with no sub-limit on investment and advisory fees.

Expenses Structure	% of daily Net Assets for Regular Plan of Kotak Emerging Equity Scheme

Audit fees	
Custodian fees	
RTA Fees	
Marketing & Selling expense incl. agent commission	
Cost related to investor communications	
Cost of fund transfer from location to location	
Cost of providing account statements and dividend redemption cheques and warrants	
Costs of statutory Advertisements	
Cost towards investor education & awareness (at least 2 bps)	

Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades resp.	
Service tax on expenses other than investment and advisory fees	
Service tax on brokerage and transaction cost	
Other Expenses	
Maximum total expense ratio (TER) permissible under Regulation 52 (6)(c) (i) and (6) (a)	Upto 2.50%
Additional expenses under regulation 52 (6A) (c)	Upto 0.20%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

Expense Structure for Direct Plan – The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Additional expenses which may be charged to the Scheme:

The following additional expenses may be charged to the Scheme under Regulation 52 (6A), namely-

- Brokerage and transaction costs (including service tax) which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 15 cities are at least:
 - (i) 30 % of gross new inflows in the scheme; or
 - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Additional expenses upto 0.20% of daily net assets of the scheme, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

Service Tax:

Service Tax on investment and advisory fees may be charged to the scheme in addition to the

maximum limit of TER as prescribed in Regulation 52(6)©. Service tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The estimates are based on an amount of Rs. 100 crores for the Scheme and will change to the extent assets are lower or higher.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. Any expenditure in excess of the limits specified in Regulation 52 shall be borne by the AMC. The differential portion of expenses if any, post charging of actual expenses will be adjusted in the investment management fee charged by the investment manager. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

Illustration of impact of expense ratio on scheme return:

Assumed 1 year Simple Average Return of the Scheme before expenses	15%
Assumed Average TER Expense of the scheme for the year (%)	2%
Average Return after charging the expense	13%

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme.

C. Load structure

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of assetmanagement.kotak.com or may call at 1800-22-2626 or your distributor.

Entry Load *- Nil

Exit Load **

- For redemptions / switch outs (including SIP/STP) within 1 year from the date of allotment of units, irrespective of the amount of investment – 1%
- For redemptions / switch outs (including SIP/STP) after 1 year from the date of allotment of units, irrespective of the amount of investment – NIL

Units issued on reinvestment of dividends shall not be subject to entry and exit load.

* In terms of SEBI Circular No. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if

any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

** Any exit load charged (net off Service Tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.
